

Amendments in the Specification

Please amend the specification as follows:

Please replace paragraph [0145] with the following paragraphs:

In yet another embodiment, the composition may be used in laundering, such as a method of using a wash liquor composition in a laundering machine, comprising the step of adding the wash liquor combination to a fabric to clean the fabric, the wash liquor combination comprising: (a) a non-aqueous, non-oleophilic working fluid; and (b) at least one washing adjuvant selected from the group consisting of a surfactant, bleach, ozone, hydrophobic solvent, hydrophilic solvent, and mixtures thereof.

Such compositions can be used in a method of cleaning, comprising the steps of: selecting a substantially non-reactive, non-aqueous, non-oleophilic, apolar working fluid, said working fluid being selected from a group of non-spark generating materials; selecting at least one washing adjuvant, said washing adjuvant being selected from a group of non-spark generating materials; bringing said working fluid and adjuvant in contact with the fabric; and applying mechanical energy to provide relative movement within said fabric.
